

TPT TRAVELS:

Offering End-to-end Transportation Solution

B. Rajkumar
Director

Today, partnering with any corporate employee transportation services provider one must take into consideration the partner's competency in delivering cost effective, safe, secure mode of transportation service deliverability with value addition.

This is where Tamilnadu Pickup Tours and Travels (TPT Travels) has robustly positioned itself in the corporate employee transportation service market with over 14 corporate clients, 5000+trips/month, a complete digitally-driven solution for routing, planning, fleet optimization, last minute amendments, cab allocation, trip sheet collection, reports and billings. The company is today known in the market for its services which includes employees transportation services, airport transfers, short term rentals, long term rentals, locals and out station with 24/7 service deliverability.

TPT Travels was founded in 2011, headquartered in Tamilnadu. It was

incorporated with a small fleet of 10 cabs, and today, the company has grown significantly with over 2000 cabs, providing instant service across every part of Tamilnadu, Pondicherry and rest of major cities in India. This is due to the trust the company has gained over the years with a proven track record.

"We operate with the clear intention of bringing technology to the employee transport process and addressing the demand for safe and reliable shared transport options. We provide an end-to-end solution for employee transportation through the combination of Automated and Manual process", says B. Rajkumar, Director at TPT Travels.

TPT Travels has its own fleet of automobiles with dedicated & experienced chauffeurs, ready for short term and long term or daily car rentals needs for our clients. TPT has adopted a service strategy based on a tripod of flexibility, scalability and safety, supported by a unique process.

TPT Travels treats its clients with utmost importance. The company always focuses on reducing the transport cost of the company with an innovative approach through fully automated transport management for optimization of trips, carpooling in applicable times which help to reduce the transport cost of the company, and smart routing.

"Our mission is to continue giving finest world class rental services and to be the best transportation service provider in the world and exceed our customers' expectations for service, quality, and value. Our vision is to be the world's most trusted and

Director

innovative employee's transportation company", highlights M. Shobana Rajkumar, Director at TPT Travels.

Maintaining Strict Quality Standards

TPT Travels' chauffeurs should complete rigorous security & defensive training before joining the company. The chauffeurs also undergo medical tests every six months. Further, to ensure utmost hygiene, the cabs are sanitized every time finishing a ride. Adding to it, chauffeurs are also well versed with various languages including Hindi, English, and Tamil to name a few. All the cabs are installed with GPS for ensuring safety measures, while every chauffeur is vaccinated. Amenities like first aid kit, umbrella, torch, mineral water bottles, newspapers, wifi are added advantages for its significant clients.

"Going forward, our goal is to provide service throughout the world. We want to become the world's best employee transportation services", concludes B. Rajkumar.
